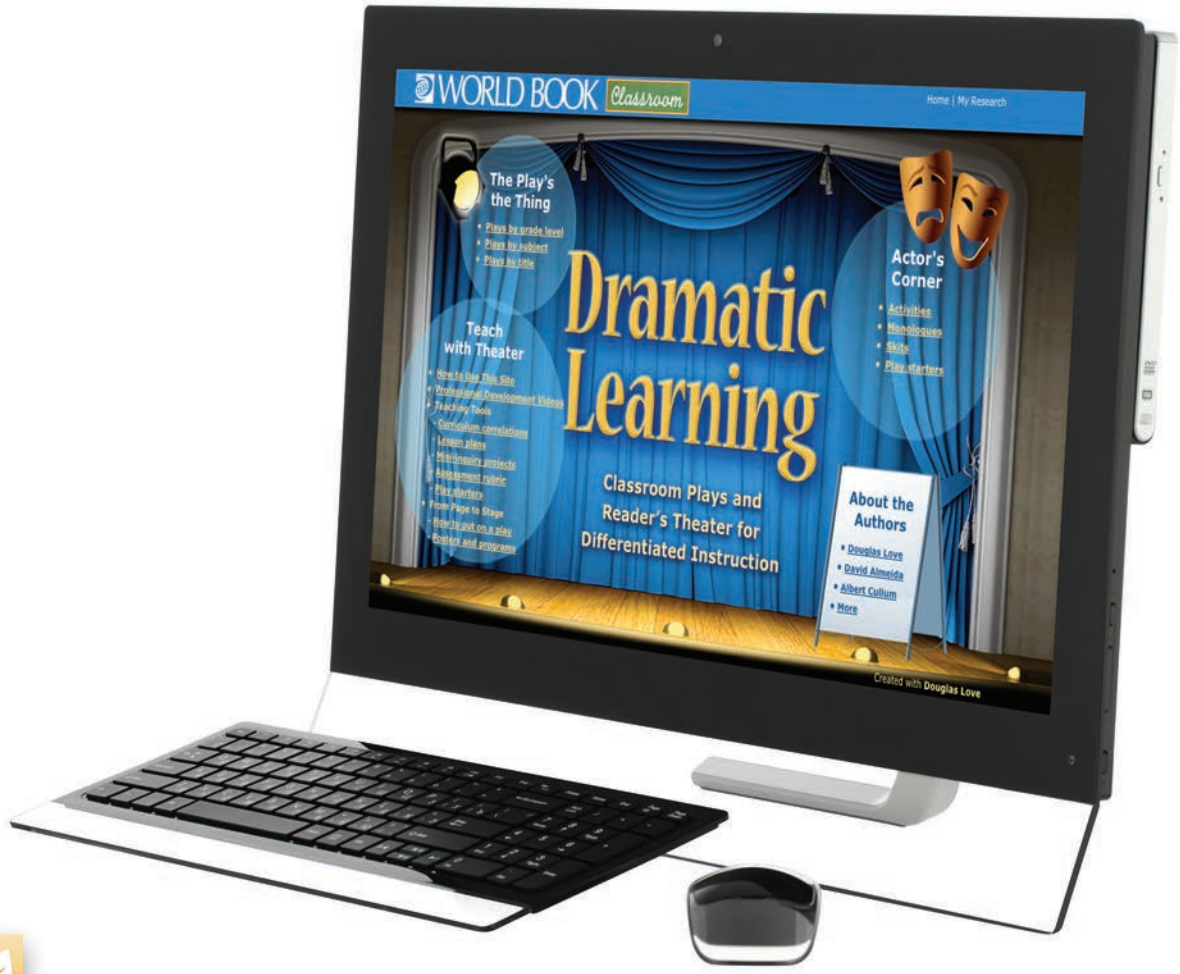
EXCITE EXPERIENCE EVOLVE ENLIGHTEN ENTERTAIN ENRICH ENGAGE EXPLORE ENERGIZE EDUCATE



Dramatic Learning

Improve readers' fluency and comprehension with dramatic readings in the classroom,library, or afterschool program! *Dramatic Learning* expands proven approaches to enhancing reading skills. By turning texts into plays, skits, and monologues and providing valuable tools for educators to apply these lessons effectively, *Dramatic Learning* can help students become more fluent readers, better understand core concepts, and more easily internalize content.

Dramatic Learning

Dramatic Learning **supports teachers' differentiated instruction efforts** by giving teachers a set of content-rich items that correlate well to a spectrum of instructional and learning styles.

Mini-Inquiry Projects challenge students to locate, evaluate, select, use, and share information effectively and hone their information literacy skills. The **Self-Assessment** tool enables students to evaluate their own research and presentation work.

Activities tied to Common Core, state, and provincial curriculum standards extend students' understanding further through **project-based learning.** Each activity in *Dramatic Learning* includes a detailed list of any materials needed and simple instructions to help students understand the goal of the project.

Key Features

- **Improve reading fluency** and sight-word recognition for all "actors."
- **Develop comprehension skills** for ESL/ELL and students reading below level.
- Promote both **independent learning and group collaboration** through the production of classic and contemporary plays.
- **Improve test scores** through creative **cross-curricular, standards-based instruction** using scripts across a broad range of grade levels and subject areas to enrich the learning experience.
- **Teaching tools,** including Director's Notes and downloadable documents, help educators turn each production into a hit!
