Early World of Learning

The *Early World of Learning* is the premier online resource for preschoolers and children in the early elementary grades. Developed with the help of experts in early childhood education, the site encompasses playful interactive learning environments including *Trek's Travels*, *Welcome to Reading*, and *Know It*. Each environment is designed for easy integration into classroom instruction and library programming.

Early World of Learning

Trek's Travels offers narrated stories, interactive games, and original videos that help teach critical early childhood concepts, such as numbers, shapes, colors, opposites, and more.

Welcome to Reading provides leveled reading practice to develop and strengthen phonics, vocabulary, phonemic awareness, and comprehension skills. This site incorporates The Lexile Framework® for Reading to help every child meet with success.

Know It is a visually rich interactive beginners' encyclopedia that will captivate early learners with nonfiction topics of interest and importance. The colorful, intuitive interface is ideal for young, curious learners.

NEW FEATURE!

Early World of Learning now has assessments! Each topic in *Trek's Travels* and *Know It* includes pre- and post-assessment "quizzes" to test students on their knowledge before and after they explore a theme.

Educators can even create their own custom assessments by choosing a theme and filling in the title, instructions, category names, and items for students to sort. This way, teachers can use the colorful quiz platform to target specific content their classes are studying.

All assessments can be assigned to an entire class or individual students to accommodate the needs of different learners. Quiz scores are tracked in the Educator Center with compiled data showing how students performed.

Key Features

- Each story features **human voice narration** that introduces children to expressive readers of different genders and backgrounds. Word-by-word highlighting further fosters development of literacy skills.
- Configurable settings and **Lexile® measures** enable educators to introduce the engaging content to emergent readers of varying abilities.
- A rich collection of **educational, interactive games** reinforces comprehension in a fun, enjoyable way.
- **Print and Do Activities** are available in English and Spanish.
- Play and download classic children's songs from the **Sing-along collection**.
- **Comprehensive educator resources** help educators integrate content into classroom curriculum, from group instruction to independent study.
