World Book Student

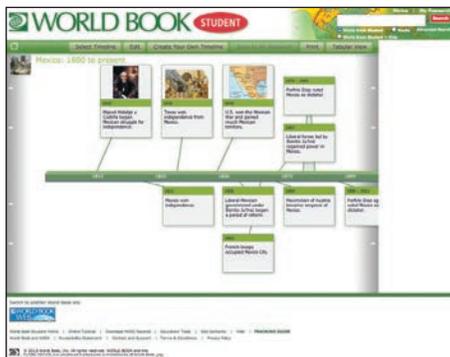

Now optimized for iPads and Android devices!

Tailored for elementary and middle school students, *World Book Student* is a comprehensive site that includes a collection of content, features, and tools to help make online information accessible and easy to integrate into students' work and teachers' lesson plans. The site features all the articles in *The World Book Encyclopedia*, plus thousands more not available in the print version, along with other high-interest content written at an age-appropriate level.

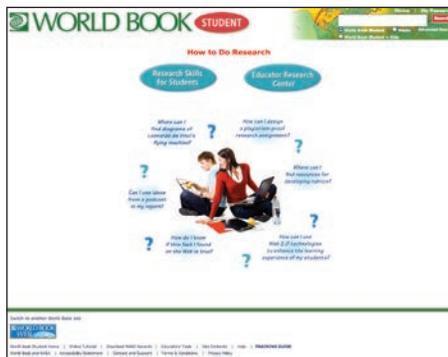

World Book Student

Student is loaded with practical features to help students develop their research skills and enhance their projects.

Timeline Builder invites users to explore historical events through an innovative, easy-to-use interface. Browse World Book's timelines on curriculum topics, customize with additional events and media, and create custom timelines from scratch with this powerful interactive tool.

My Research allows users to generate individual accounts where they can create multiple projects, save multimedia search results, and add notes. The **How to Do Research** feature helps users develop critical information literacy skills.

Behind the Headlines puts the day's top stories in context with straightforward language and links to related World Book articles.

Key Features

- More than **40,000 encyclopedia and similar articles** featuring high-interest content written at an appropriate grade level for students.
- **Correlations** to Common Core, state, and provincial standards.
- Thousands of links **cross-referencing** other relevant content selected by World Book editors and expert contributors.
- Rich **multimedia**, including nearly 700 videos and original animations and over 17,000 photos and illustrations, as well as maps created by World Book's award-winning cartography team.
- **Lexile® measures** on *Student's* most popular articles.
- **World Book Biography Center**, with more than 10,000 biographies of both historical and contemporary figures who have made important contributions to art, science, politics, and more. A user-friendly interface allows students to search and select biographies based upon time period, gender, field of interest, and nationality.
- **Easy integration** with federated search systems.
- Extensive **built-in dictionary** and an **easy-to-navigate atlas**.
- A **resource page** for educators that provides a range of information, including correlations of World Book content to state curriculum standards and links to lesson plans and professional development sites.
